

# ASSIGNMENT – 1

**Step 1.** Create/Log into GitHub.

**Step 2.** Created a repository with the name [2301031800013].

Selected repository visibility (public/private).

Clicked on "Create Repository".

**Step 3.** Clone the Repository

Copied the repository URL from GitHub.

Used the command **git clone** <https://github.com/bhavesh142/2301031800013> to clone the repository locally.

**Step 3.** Create Folders

Assignment\_1

Assignment\_2

**Step 4.** I added the folders to Git using git, such as Assignment\_1 Assignment\_2.

Committed the changes using `git commit -m "Added Assignment_1 and Assignment_2 folders"`.

**Step 5.** Pushed the changes to GitHub using `git push origin main`.
